PROFESSIONAL SUMMARY

B.Sc. Data Analytics student (CGPA 9.2) at Guru Nanak College, Chennai, with strong SQL querying skills and practical experience in Python, data cleaning, exploratory data analysis (EDA) and Power BI dashboard development. Turns data into data-driven decisions by presenting analytical findings through charts and dashboards and converting them into business recommendations. Seeking Data Analyst Intern or Junior Data Analyst roles.

TECHNICAL SKILLS

- **Programming:** Python (Intermediate), C++ (Beginner)
- **Databases and SQL:** SQL (strong foundations; basic JOINs, subqueries and aggregate functions), MySQL (Intermediate), PostgreSQL (Beginner)
- **Data Analysis:** Data cleaning, data inspection, exploratory data analysis (EDA), data preparation, pandas (Beginner), NumPy (Beginner), ETL and A/B testing (Basic), identifying patterns and trends
- **Data Visualisation:** Tableau (Intermediate), Power BI (Beginner; DAX Intermediate; dashboard projects), Matplotlib (Beginner), Seaborn (Beginner), Streamlit (Beginner)
- **Spreadsheets:** Microsoft Excel (Intermediate; pivot tables, VLOOKUP)
- **Tools:** Git (Beginner), GitHub (Intermediate), VS Code, Linux/Ubuntu (Beginner), reporting automation (Basic)

ANALYTICAL KNOWLEDGE

- Descriptive statistics: mean, median and mode; percentages and percentage change; correlation; probability; hypothesis testing and regression (Basic)
- Data quality: outliers, missing values and unusual values
- Business KPIs: revenue, profit, growth and customer retention
- Business reporting and data-driven decision support through charts and dashboards

PROJECTS

Zomato Restaurant Business Intelligence Dashboard

Python, Pandas, Matplotlib, Streamlit | GitHub: github.com/Sailesh-N-dev/zomato-business-intelligence-dashboard

- Cleaned and inspected a Zomato restaurant dataset (approximately 9,200 records), checking data quality and preparing it for analysis.
- Performed exploratory data analysis on restaurant ratings and price ranges, visualising patterns with Matplotlib.
- Built an interactive Streamlit dashboard to present the findings, and documented the project on GitHub.

Fuzzy Factory Dashboard

Power BI, Microsoft Excel

- Developed a Power BI dashboard for e-commerce sales analysis, covering product performance and key business KPIs.
- Designed dashboard visualisations to present business metrics clearly to non-technical viewers, supporting data-driven decisions.

EDUCATION

B.Sc. Data Analytics, Guru Nanak College, Chennai | Expected 2028 | CGPA: 9.2

Higher Secondary (Class XII), Santhome Higher Secondary School | 86%

CERTIFICATIONS

- **Digital 101 (30 Hours)**, NASSCOM / IT-ITeS Sector Skills Council | Gold category, assessment score 86% | August 2026
- **Introduction to Modern AI**, Cisco Networking Academy, Guru Nanak College (Autonomous) | December 2025
- **Networking Basics**, Cisco Networking Academy, Guru Nanak College (Autonomous) | December 2025
- **MongoDB Learning Certificates (5)** | July 2026
- **Yuva AI for All**, NASSCOM / MeitY-NASSCOM Digital Skilling Initiative | Certificate of Participation | March 2026
